

Hand, 15 Philadelphia H.

June 1914

May 22nd, 1914

Dr. Hastings H. Hart,
130 East 22nd Street,
New York.

Dear Dr. Hart:

I have to thank you very much for your letter in answer to mine with regard to the possible occupant for the new position that is to be established. I am keeping the names that you have given me for further consideration.

I had already written to Dr. Graham Taylor and Dr. Devine, but I have yet had no answer from them.

It is possible that I may be able to make time to see you personally about the matter in New York before I sail for Europe on the 10th of June, but I can, I am afraid, not state definitely as to what my movements will be.

I have not met your daughter, although I have heard of her and Miss Carson, whom you know, has spoken to me on more than one occasion. This city is growing so rapidly, and there are so many occupations for busy people that it is difficult to see many except those who are in one's own immediate circle.

With kind regards, I am,

Yours sincerely,

President.
